## **Tribute to Atami Bay Fireworks- "Fireworks-themed Christmas"**

Date: December 1st - 25th, 2019

Hoshino Resorts RISONARE Atami, a resort hotel immersed in the hot springs and superb views of Atami, will be hosting "Fireworks-themed Christmas", a Christmas event with the concept of fireworks, the symbol of Atami, from December 1st to December 25th, 2019. The symbol of this event is the "Fireworks Christmas Tree" appearing in the activity lounge, characteristic for its open-air space. The event space is decorated with ornaments and lights reminiscent of fireworks. Furthermore, footage of fireworks is projected on windows about 6m high, making it seem as if fireworks are being set off. Apart from that, guests will also be able to enjoy a crafting experience and a concert.

The Atami Fireworks Fair on the Sea is a historic fireworks event which reaches its 68th year in 2019. Being held more than 10 times a year, it has become an event symbolizing Atami which can be enjoyed all year round. Inspired by the Fireworks Fair, Hoshino Resorts RISONARE Atami wanted to enable its guests to enjoy a true Atami Christmas with the concept of fireworks, leading to the opening of this event.

## 1. A space to enjoy a cross-over between Christmas and fireworks

A Fireworks Christmas tree, decorated with colorful decorations inspired by fireworks, is set up in the activity lounge. The change of the tree's colors from blue to yellow to pink almost makes it seem like brilliant fireworks are sparkling in the night sky. Also, footage of fireworks being set off is projected onto windows about 6m high, and Santa Claus appears at the end. That concludes the footage that gives the feeling as if fireworks and Santa Claus are actually there. Ornaments matched with the design of the Christmas tree also appear on the tables.
