

Perfect location to use as a base for travel, and the appeal of Kawasaki

OMO3 Tokyo Kawasaki is located near Kawasaki Station. It can be reached in 16 minutes from Haneda Airport, and one can take a single train from here to get to Tokyo Skytree (Asakusa), Yokohama, Zushi, and other famous sightseeing spots, a good place to use as a base for an aimless trip.

Around Kawasaki Station, there are a lot of historic restaurants, bars with live music every night, and a wide variety of other establishments popular with the locals. Going around these sightseeing spots is the best way to have fun in the city.

3 features to enjoy at OMO3 Tokyo Kawasaki

Feature 1: Three room types to choose for different lifestyles

<NEDOCO Pod>

NEDOCO Pod is for guests who want to enjoy a carefree vacation. It's a dormitory-style room that will make you want to curl up in bed. The bed is a semi-double, big enough to stretch out your legs with room to spare after a long day of walking. With a reading light, a security box, and a rail to hang your clothes, it is a compact space but still has everything one could need to live comfortably. It feels like a secret base, where guests can fully enjoy some time to themselves.

<COBACO Cabin>

A private room with a lock, great for those who do not want to compromise on privacy. There is enough space to lay out tons of luggages, and guests can relax without worrying about being seen.

<SUMICA Room>

A guest room that can be used by two people. With a sofa, private shower room, rearrangeable hook wall, and other features to make it convenient for travelers.

Feature 2: No need to go back to your room! Spend your free time at OMO Base

At OMO Base, guests can visit the dining table to eat the famous dishes they bought in the city, make plans for their travels on the couches, or do whatever else they prefer to do during their free time. There is also a bulletin board and map with information about Kawasaki, which is a good reference for things to do and enjoy in the city. This hostel is also planning to collaborate workshops with the locals and other exciting events related to the city in the future.

Feature 3: Easily adapt even if you don't know the city with the Go-KINJO service

The philosophy of the OMO brand is to see the city as one giant resort, with the hostel at its center, they want their guests to go out and see the sights as their main event. Nearby Attractions [Go-KINJO] is a service that helps guests enjoy the fun things to do in the local neighborhood (go-kinjo in Japanese) within walking distance of the facility. There are several services prepared for this purpose, such as the Go-KINJO Map, filled with recommendations from the locals actually working in this city, and the Local Guide OMO Rangers, an tour activity where the friendly staffs guide through the city. Whether it is touring the izakayas beloved by the locals, or experiencing the technology that you can only see in a manufacturing town, there are many ways to enjoy the rich city of Kawasaki with its mix of several cultures.
